Personal statement

I am a Senior Front End developer with over 5 years of experience in the field of Website and Application Development with a knack to convert an idea into a reality. My Future goals are to take on a role with more responsibility where I can better utilize my skills that I have acquired over my 5 year career in a fast-paced work environment. I've an in-depth knowledge and experience in developing front-end systems with backend and API development across the full development lifecycle.

Key Skills

- Proficiency in all areas of web markup (HTML5) and front-end pre-processors and styling (e.g. CSS3, SCSS, Tailwind etc.).
- Excellent knowledge of responsive design and UX and UI frameworks.
- Excellent knowledge of the latest tools and technologies (e.g. Typescript, Webpack, etc.).
- Strong knowledge in code versioning tools, such as Git.
- Experience with Test Driven Development and unit testing.
- Advanced experience with search engine functions and SEO.
- Great knowledge of JavaScript, React and Redux.
- Able to write cleans HTML, CSS, JavaScript and JQuery.
- Experience working with REST based APIs.
- Passion for learning.
- Knowledge of Cloud AWS and Azure.
- Excellent communication skills, both written and verbal.
